Due to the printing process restrictions, some of the colours may differ slightly from the actual flooring finish. If you are viewing this colour chart through a screen, such as a desktop or a phone, please be aware that the screen settings and brightness may affect how the colour appears. Different products and textures chosen can also change the appearance of the colour in the finished floor. The RAL numbers above are approximate. Due to the manufacturing process the same RAL colour may differ slightly with each batch created. Please contact our main office on 01246 412 222 if you require any hard samples of our products. When enquiring for hard samples please quote the name and RAL number as well as the product you are enquiring about.
